DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

- a. Claims 1-4, 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Liao in view of Xieh. Liao discloses an exerciser having a shaft 112, 114, seat 260, leg module 120, a rod 274, retainer 272 and pivotal mounting in figure 3. Liao does not disclose a first and second clutching member. Thus, Xieh teaches clutching members 114 and 115. It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the device of Liao such that including members to secure the seat on the frame prevents collapse of the device, as taught by Xieh.

Allowable Subject Matter

2. Claims 5, 7-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 9-18 are allowed.
